

BALCONISTA MESA

Balconista Mesa is the perfect triangular 2-top table for your balcony space. This design wonder allows you to share conversation or coffee while enjoying your beautiful balcony view. The table installs on vertical rails. At 36" high it pairs perfectly with counter height stools. The Mesa utilizes an angled support bar instead of traditional table legs to provide a sturdy dining surface. Constructed from [Tangent recycled product](#), this wood alternative keeps approximately 220 milk jugs from the landfill. Utilize your gorgeous balcony space again. Sitting is believing.

US Patent 9,936,801

US Design Patent USD865,395S
