

FLP SERIES PAVILION CABANAS WITH FALSE DRAPES

Perfect for rentals, our Pavilions can be equipped with center fan bracket and TV mount options, and are disassembly-capable, thereby eliminating the permitting issues associated with permanent structures.

Poles are available in either fiberglass or in standard, anodized, or powder-coated aluminum. The photo features optional aluminum side-slat upgrade. All Pavilions are designed to be anchored to a concrete or wood deck or to be attached to a 90+ lb. umbrella base for each post.

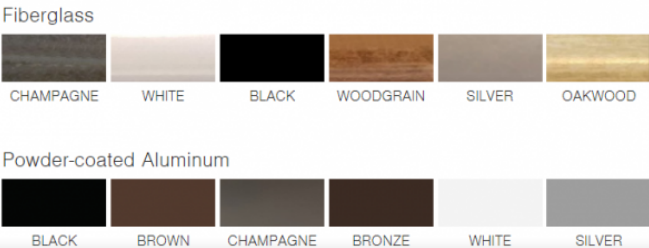

CANOPY

- Item: FLP0808FD
8' x 8'
w: 96"
h: 84"
