

GREENWICH 10' SQUARE ALUMINUM GIANT MARKET UMBRELLA

The G-Series Greenwich is polished, refined and has redefined the aluminum market umbrella. This stylish, well-designed frame is manufactured using a single 2" diameter aluminum center post with a 3 mm wall thickness, increasing lateral strength for locations susceptible to more than gentle winds. Its polished silver anodized finish and solid marine chrome plated aluminum finial offer the perfect finishing touch to any upscale environment.
