

SAFE SMOKER CIGARETTE SNUFFER

Our “Safe Smoker” cigarette receptacle is made of high-density polyethylene with UV inhibitors and a flame retardant additive. The tubular top design restricts oxygen to extinguish burning butts. It keeps rain out and odors in. The top is easily removed to empty the internal 5 gallon galvanized collection bucket. Sand can be added to give weight or use the integrated hold down tabs to bolt it down. Aesthetic appeal for indoor or outdoor use.
